

*UNRWA, the United Nations Relief and Works Agency, runs 59 “temporary” camps for 6.7 million Arab refugees & descendants from 1948*

*UNRWA, with a \$1.6 annual billion dollar budget from 47 nations, spends 58% of its funds on schools which teach “right of return “ as the only option for their children’s future.*

Focusing on the plight of Arab refugees since 1987, The Nahum Bedeian Center for Near East Policy Research, working with the Israel Legal Forum, has reviewed more than 1000 texts used by UNRWA and produced 20 movies shot on location, while conducting numerous studies inside UNRWA, reaching one conclusion:

## **UNRWA promotes war.**

UNRWA uses texts that glorify murder of Jews and demonization of Zionists.

However, **UNRWA donor nations make UNRWA policy.**

The Nahum Bedeian Center for Near East Policy Research now pioneers a new refugee task force - to implore each UNRWA donor nation to end a policy of “refugees for perpetuity” and to foster a policy of dignity for the next generation.

Now seeking ***citizens of conscience*** to advocate UNRWA policy change and meet policy makers from each UNRWA donor nation: Germany, US, UK, Finland, Canada, Belgium, Holland, Sweden, Ireland, Spain, Norway, Italy, Switzerland, Denmark, France, Australia.
