Mahmoud Abbas, leader of the Palestine Liberation Organization, a terrorist organization, has launched a violent anti-semitic tirade which has been condemned around the world.

Yet "condemnation" has no effect on Abbas, who galivants around the world, heading an entity, funded by 135 nations without any pretense of transparency,

What Abbas may not know is the PLO leader enjoys no immunity anywhere

I checked.

Abbas has no immunity from criminal prosecution in Israel, theich US, Canada, or the 27 nations of the EU

Anyone- anywhere = can file a police complaint against Abbas because of his criminal incitement and demand that Abbas be denied freedom of movement in their country
